

All praise is due to God, and peace and prayers be upon the Master of the messengers, his family and his companions. As for what follows:

O our wali sheikh, I am the Muslim, [REDACTED]. I have previously filed my grievance, attached, to you several times. I am under pressure by the Real Estate [center] that only God knows how tough it is. I was given the property officially by the previous wali and all the procedures were official. However, they did not approve of the memo, which I attached to you, and did what they did, and arrested me. The matter that hurts me the most is that the person named Abu Abdullah Real Estate [end of page one] kicked my wife outside the house and said to her, "Speak to brother Abu Muslim through the wireless device," but she refused to speak because of her chastity. Then he spoke on the wireless device, humiliating me, and said, "Let her listen well: If her husband is a real man, he would have come and faced us, but the reality is that he is a thief. So, be careful of him for he shouldn't be called a man. Get out of the house."
