Peace be upon you, and God's mercy and blessings.

We ask God for you to be in good health.

My noble brother, the external publication and communication official in the Wilayah:

This is the Pidgin program for communication. It is encrypted and secure for textual correspondence only. May God protect you; go ahead and copy the entire file that you have and open it from the icon:

PidginPortable

The program does not require installation (or set-up) or input of a username and password. We have already done that, and this is the portable version of it.

When the program opens, a list of names will appear. Each name represents another brother among the external publication and communication officials in the other wilayat.

When you want to send important and urgent messages and you do not want to use Telegram, send them to us in the Media Monitoring Committee via the Pidgin program. Whenever a file reaches you, write us on Telegram and tell us that you received the file.

Names and numbers of the committee official in the program:

moharib

Abuibraheem

Abomohammed

Monaser

These accounts represent the Media Monitoring Committee [personnel] (Abu-'Abd-al-'Aziz).

Beloved brother, if you encounter a problem with the program, correspond with us on Telegram right away. Strive to ensure the program is not saved in a file with an Arabic filename.

The code word for the program – if you want to notify us that you wish to send a message – is "Face," which means that you will say on Telegram, for example, "Open Face," and the intended program is that one.

May God reward you.

Send our greetings to all the loved ones.
