Detainee clarified Arab fighters are brought across the borders to an unidentified location in Iraq. They are transported by unknown people to a camp located in the Mosul desert. The camp has two tents. The first tent is occupied by Abu Sarah, aka Abu Jasim, aka Abu Qaswarah a North African AQIZ/ISI leader. The second tent is divided in half. One half is occupied by Abu 'Abass and Abu 'Abdallah, two Iraqi men who oversee the Arab fighters. The other half of the tent is occupied by a second Abu 'Abdallah and his family.

Arab fighters are driven from this two tent camp to a predetermined hill. The hill is about twelve to fifteen feet tall and has a forty foot diameter base. It is a unique land feature. The Arab fighters are driven by either Abu 'Abass or Abu 'Abdallah. The Arab fighters are collected by Abu Arab and taken to an unknown location inside Mosul. Detainee denies having any additional information about the flow of the Arab fighters into Mosul. [REDACTED]

This development was implemented two days prior to Detainee's capture. Abu Sumiyah is not in charge of any of the territories he used to control.
