Testimonial text:

When I went to work, to join a battle in the Wilayat Damascus, I took with me all that I needed. When waiting at the headquarters, I parked the car in which my belongings were in front of the headquarters door. And then I saw the child, [redacted], searching among my belongings, and I never thought that he was stealing. After we arrived to the city of Palmyra, I inspected the things and noticed that they were missing a night vision binocular and a distance measuring device.

Then, I tried to remember what happened and realized that it was the child who stole these items. When I returned to al-Tabqah, I saw the child and took him to the General Police station in al-Tabqah. Accordingly, I entrust brother Abu 'Abdul-Rahman al-Muhajir to complete the work on my behalf in this case.
