

[This is one page of a document with unknown number of pages.]

After about two months, Abu Islam, [works at] the al-Tabaqah Real Estate, to my family and asked them to leave the house and gave them 48 hours. They said to him, "Give us time until Abu Saif comes from ribat." He said, "And what if he does not return?"

After my return from ribat, I went to Abu Islam in the office and spoke to him and reminded him of God and how he treats my family in a bad way and yelled at them. Then I said to him, "How do I get out of the house?" He said, "If you do not leave, I will bring you the security of the mujahidin." I told him, "I want to meet a judge, and then I will leave the house." He said, "You leave the house first and then you go to the judge."

Then, on the same day, he came with the security of the mujahidin, and they asked me to write a pledge that I would leave the house after a specified period, but I refused because the talk was that the house was not public property. He said, "If you do not write the pledge, you will be imprisoned." Then they took me and imprisoned me in al-Tabqah for about 3 days as well as imprisoning me in Raqqah as well.

After I got out of prison, I requested an interview, and thank God I met you yesterday and you told me to write the whole story in the wali's office.

I would like to point out some points regarding the brother in charge of the al-Tabqah Real Estate, Abu Islam:

1- He says that the house is his uncle's house, but he did not mention that until two months later!

2- He said he told me to report the house and [illegible] the house and I refused.

3- He said that I am from the Wilayat Aleppo and I used to be part of the caliphate army.

He also did not show me any official letter to get me out of the house, not even the brothers who arrested and imprisoned me, except for an (identification card for the security of the mujahidin).

4- Brother Abu Islam presented a certificate proving that the house was for the common people [public property].

5- Brothers in the security of the mujahidin says that I have two homes.

6- Please make sure of the date he was notified about his uncle's four houses, and was it before or after the problem with me?
