Establishing a Complaint

Complainant: [REDACTED], the father of brother Abu Suhayb who works at Ali Bin Abu Talib Brigade

Defendant: Brothers work in Khawajah Khalil Battalion – Abu ‘Ubaydah ‘Amir Bin al-Jarrah Brigade

Text of complaint: I was hunting by the Tigris River, and my weapon was an air gun. I heard the sound of shooting towards me from Khawajah Khalil’s side. Then, an electric boat crossed the river towards me, and a group of people got off the boat and started cursing with phrases including (dog, agent, apostate). They shouted loudly: Where is the camera? Where is the mobile? Then, they blindfolded me and took me to the other side of Khawajah Khalil. Then, they tortured me. Then after the torture, a man came to me and said to me: Did they torture you? I said yes. They hit me on the hand. Then, the other man said: Don’t lie, because we hit you on the back.

I have a picture in the Affairs office, and this picture is after eight days of torturing me. Then, came a brother named Abu ‘Uthman, who works within their brigade, and said: There is no suspicions against this man. They said: Do you vouch for him so we release him? He said: yes. So, they released me. Then, I told them I have three sons who work in the [Islamic] State and I am an old man. They told me: Many of the senior heads in the State are wicked.

Then they told me: How much would you pay so we release you?

Then, the man added: During the entire interrogation period, I was handcuffed and blindfolded.

And may God reward you the best.
