Testimony of Abu Bisat regarding Abu ‘Abdul-Rahman al-Awrani

I was at the headquarters the day before the Abu Bakr al-Fuduni incident, and the night came [illegible]. I woke up at night and went to the bathroom [illegible]. I found Abu ‘Abdul-Rahman al-Awrani with his pants down and all his sensitive area was visible. Then, I went back to sleep in another place.

The next night, I came to sleep and he started to [illegible]. Brother Abu Bakr al-Furduni told me about his incident with this person at night while I was sleeping. He started moving his legs gradually until he uncovered me, so I stayed like this. Then, he took my leg and put it between his legs. So, I got out of bed looking for a place to sleep. Then I took a blanket and went back to bed, so he took the blanket from me and claimed that he was sleeping and covered the two of us with it. In the morning he told me that he had nightmares at night and asked me if he was moving a lot and I said yes to him. Before that, he came to me and started touching me in a strange way and in sensitive places, and started telling me that I was weak.
