Document Summary: This is a description of the division of sectors around Iraq that explains the definition, components, and the considerations taken in dividing a sector. The report tabulated specific sectors, borders around these sectors and comments.

[Page 1 of 3]

In the name of God, Most Gracious, Most Merciful

Praise be to God, The Cherisher and Sustainer of the Worlds, and may God's prayers and peace be upon our Prophet, Muhammad and his family and all his Companions, hence:

Below is a report of the borders of the sectors:

Definition of a sector: It is a limited establishment with certain number that is regulated by administrative regulations and has either natural or artificial geographical borders.

Components of a sector: Individuals, weapons and vehicles, social reality, geographical spot from earth.

The main considerations in dividing sectors:

- The availability of an adequate quantity.
- The presence of a sub district center as a minimum for the administrative units.
- The presence of strategic locations and essential considerations for the group.
- The presence of (natural or artificial) geographical dividers.
- The insignificant groups would either join any nearby sector or remain independent and work on its advancement to a level of a sector.

Below is a table explaining the borders of the sectors that are amongst the geographical spot, operates by the sector. By observing the border of the sectors, we noticed that there are some groups far from these borders, and were attached to a sector due to the inability of opening a sector, and others were kept independent with the division of the some large sectors:

Serial Number	Name of Sector	Borders around the Sector	Comments
1	Al-Mosul	West toward Rabi'ah, south to al-Qiyarah (internal) side, north is Dahuk, and east is the border of al-Mosul city	To be divided into two sectors in accordance with the requirements

		south, and Dijlah river from the west	
31	al-Ramadi	From the east of Fallujah to the city center of al-Ramadi and al-Ratbah. West toward Rawah and 'Anah areas	Will be a new and independent battalion and make part of Rawah and 'Anah

The problems that challenge us during the division of the sectors are:

1. Distributing the weapons equally to the sectors after the division.
2. Distributing the available vehicles to the sectors.

[Page 3 of 3]

3. The interpenetration amongst the sectors that were one sector (during the nonexistence of separators in the division).
Decision: Rename the sectors and bind by it, in order to eliminate the zonal and tribal considerations from souls of the brothers.
