He appealed to other brothers to use his names appropriately due to security concerns. **(TC: this note was handwritten in English).**

[Page 4]

I would like to make it clear to the generous brother, that my name which is commonly used amongst the brothers is 'Imad or Abu-'Imad, but my correspondence name is Abu-al-Sha'ir or al-Basha'ir. Therefore I wish that these names are used accurately and in their proper situation, as using them in the wrong situation would compromise me gravely and undermine my security; and please inform all those working with you to only use those names when addressing me. **(TC: this paragraph is repeated thirteen times in this page)**

A letter from Al-Furqan Media productions to the media individual in charge telling him the importance of media in managing wars. If media is the weapon that used to face the crusader war. The letter contains instructions to follow, such as when to publish publications, no publications should be published under the state's name, when to send military operations, how to capture videos. **(TC: this note was handwritten in English)**

**To the virtuous brother Media Director Sallah-al-Din God
Save Him**

Peace be upon you...:

It has to be said that media has a big effect on managing a war, it is one of those weapons that we cannot do without during the war against the Crusaders.

From this point only, an Islamic State must establish a media institute (Al-Furqan Institute for media production) to be its media face, internally and externally and on all fronts and Al-Furqan institute would not have been this influential without God's help first and secondly your help.

In order to improve our media work, it is imperative we cement our cooperation through the following:

1. We must release our watched, listened to and read publications in record time.
2. Prohibit the release of any publications in the name of the state.
3. Send and monitor all military operations and others so as to stay updated on current events.
4. Filming must be done with the following in mind:
 - a. The film should be limited to the material that would help our work.
 - b. Only (DV-PAL) systems ought to be used while filming and AVI when producing it.
 - c. Forward an identification note of the operation that contains the following (Name of operation-Date-time-place-type-result-events that occurred during the operation) and any other details pertaining to the operation.
 - d. When filming the suicide brother, please respect the following:

1. The chosen words relayed to our suicide brothers, whether it is advice or similar should be kind words. But we have seen that some need direction and we are accused of being warriors and not respecting scholars as we think that we are highly intellectual and superior compared to others and we have been descried by many as rude. Regardless on whether we have been misjudged-we plead our case to God-we are not going to question our virtuous brothers-but our duty is not to hallow these thoughts but to concentrate on compassionate words.

To Our Excellent Sheikh / and to Salah-al-Din
God Bless
Peace be upon you ...:

Do not fear - god is watching after you - media work has a big affect on the execution of wars, it is the weapon that you cannot deny when facing the crusader war.

As you know - god keep you - in these circumstances we need to list these briefly:

First - stick to the procedures, believe in god and rely on god alone.

Second - we need to counter this war with media statements which explain our ideology and what god says for us to do.
Third - stop the enemy and hypocrites and make every effort to not give them any chance to stop jihad and the Mujahidin

It is gods will that the Islamic Nation create a media establishment (Al-Furqan Media Production Establishment) in order to be the face of media for the Islamic Nation internally and externally. Also to confront the false media and al-Furqan Media cannot accomplish this feat without the blessing of god or without your cooperation.

God bless you
May he guide you on the path of truth
Peace be upon you and blessings

To our beloved photographer
God bless him

Peace be upon you ... :

Know - Blessings of God upon you - that the work you do is
no less important than military work because you are -
Blessings from God - the primary conductor of what takes
place. God is God who grants skills and your calling is
for photography:

1. Take a broader scope of current events, and be patient
when photographing, take pictures of battle
preparations, the beginning stages of battle and
others.
2. When you are taking pictures of a martyr, please
adhere to the following:
 - a. Pay close attention to most of the words chosen
by the martyr brothers about guardianship etc. and
make sure they say good things, but we have seen some
where they are not paying attention and they need
direction because we are being accused of being
mujahidin by not honoring the leaders and we are
accused of spreading religious persecution and acting
superior to the people and we are described as
alienating and described as having bad morals and no
doubt overlooking the extent of that for our injustice
- May God take care of the Complainers - we do not
doubt the words of the pure brothers - we heed them

and god heeds them - our duty is not to ignore these suspicions, and we will focus on the merciful words spoken about our country and expressions about our religion and we urge the nation to follow the path we take, which is not a negative one, we diverge from the trend of degrading our nation, so we shall set a good example.

b. The length of the his will reading should be about 5-7 minutes long

c. The uniform should be black clothes and there should be no background and they should have plenty of weapons beside them

3. Make sure to take enough cassettes so you are not short
4. Charge the battery for the camera and carry reserves
5. You need to be prepared beforehand to film operations and determine camera locations, therefore you need at least three cameras (2 stationary - 1 mobile)
5. Film what you can (preparations of the brothers - the martyrs - training - sessions and other good times such as riding horses or riding carts carrying flags) but while observing the rules of Islamic law.

God willing the photographers of al-Furqan will be honored
