The three aforementioned persons have come to join the jihad. We think they are devout and religious people. As we know, they are military officers and are expert in all kinds of weaponry. They have asked us to introduce them as mujahideen, and deploy them. Therefore, the three individuals are hereby introduced to you and sent to your service. It is requested that you determine their place of stay, and take care of them as you know. With the three mentioned people, a person called Sahib Gul is sent as a translator. He will serve as a translator until you find another good translator. Once you find a replacing translator, please send Sahib Gul back, as he is a security guard here at the office and the buildings. From the appearance of the three people, it looks like they intend to do jihad with great honesty.
