Initial study of "Bukhari" Camp for beyond the River Immigrant

" My subjects who believe, my land is spacious so worship me" (56) (Book of the Spider, verse 56) [From the Qura'an]

"Who believed and migrated and struggled in the cause of God, and those who sheltered and supported them, those are the believers, they truly have forgiveness and generous reward" (74) (book on Anfal, verse 74) [From the Qura'an]

In keeping with the divine orders and the master's direction, some of the Muslim people in Uzbekistan have chosen for themselves the way of migration to a land seeking safety for themselves, their religion, and their honor, after the persecution of the Kremov Regime against anyone who tries to return to his Muslim identity and abiding with proud the Islamic law.

In the beginning, our victorious brothers in the Islamic Emirate of Afghanistan provided them with shelter (housing). As the numbers of the immigrants increased, the Islamic Movement of Uzbekistan was forced to rent houses to shelter them. This became unfeasible as the number of immigrants has surpassed two hundred [200] families, so the leadership has been forced to find alternative solutions to the immigrants from beyond the river. The leadership has also received word that tens (10's) of families are on their way immigrating to Afghanistan. So after consultation, the leadership is considering the idea of building "Bukhari" camp as a refuge for all persecuted Muslims by the backslid governments beyond the river.

Note: If the Uzbekistani Muslims can find a safe way to immigrate, they would immigrate by the thousands [1000's], because of the tyrant government's pressure and the alienation of religion under witch they live. But the rout is very difficult, and in addition, the government is closely monitoring those who are religious, The faithless government will confiscate the possessions of whoever it suspect of intending on immigrating to Afghanistan.
